BEING FAMOUS? NO, THANK YOU!

We all think it is very interesting to be famous. But famous people have a lot of problems, too, so their life isn't always very easy. There are good and bad sides of being famous. If you are famous, everybody likes you and you have a lot of friends. There are so many people who want to know more about your life (What do you do? Where do you go?). You have a lot of money, too. You live in big, beautiful houses, drive fast cars and you have expensive things. There are also people who take care about your look. If you are famous, you can help poor people and do good things with your money. You have very exciting and interesting life. You also travel all over the world. But, there are also bad sides of being famous. Fans sometimes can be very boring and aggressive. To be famous you must work hard and it isn't easy to become famous. You also have a lot of friends, but you don't know who your real friends are. You miss your family and friends. The worst thing for famous people is that they have no privacy. Reporters and journalists are usually behind them and there are lies about them in the newspaper. I don't want to be famous. I'd like to be successful and have a good job, but not to be famous. I also want to have family and peaceful life far from boring fans and reporters.

BEING FAMOUS? NO, THANK YOU!

Hm... being famous. What does it really mean to be famous? Is it make up? Is it clothes? Or money? In this story, I will tell you my opinion about it, and we will answer a lot of questions. So, let's go! First, let's talk about bad sides of being famous. You always have to be prepared for photoshooting. You have to wear the best and the most expensive clothes just to take a few photos. So they can end up on a cover of some world best known magazine. But, that's not all, because that picture will be seen by a thousand of fashion experts and then, tomorrow you will end up on a list of worst dressed celebrity people EVER! Why? I mean, who cares how much Paris Hilton paid for her new pink purse? Or which color is it? But, these are just a few things that I don't like about being famous. And the worst thing is that you have no privacy and your personal life. Some people love that, but I don't! I mean there are some good sides about being famous. For example, you travel a lot, you have a lot of money and everybody likes you. After all this, I think I wouldn't like to be famous. I love my life just like this and I don't want to change it for paparazzi and the most expensive clothes. So, I need to hurry because my lunch break is about to begin. Bye!

ANIMALS

I love animals. To be honest I just can't live without them, because they somehow complement my life. I have one dog, two turtles and a hamster, and I would also like to have an iguana, because I love such exotic and unusual animals. I don't understand people who don't care about animals. We can all have different opinion about them but you just can't buy animal and don't care about it. You can't leave it on the street or in the worst case abuse it. I would punish those people because animals are living creatures. Unfortunately, many people simply can't understand that. My dream is to become a vet and to work on protection of animals. I want to give them hope, because they are our best friends, especially dogs - those loyal and good creatures. Love animals, treat them in a good way, and don't abuse them. They also have feelings, just like we. Put yourself in position of one poor animal and I'm sure you will change your opinion and your behaviour.

Sveti Nikola podijelio je darove i ove godine. Priredba njemu u čast održana je u crkvi svetog Dominika. Čizmicama raznih vrsta okitili smo naše razrede. Volimo što su različite i volimo što su pune! Maštoviti ukrasi krasili su svaki kutak naše škole. Božićna priredba bila je vesela kao i svake godine. U ovom vremenu u našoj školi održano je više humanitarnih akcija. Donirali smo novčana sredstva Hrvatskom crvenom križu, Caritasu, a na poticaj 5.c i učiteljice Lidije Čujić Živković održana je humanitarna akcija *Meni je malo, a nekome bi trebalo*. U ovoj akciji prikupljena je kvalitetna odjeća i igračke koje su naši učenici prerasli i darovana je onima kome je potrebna. Akciji su se odazvali svi.

PROJEKTNA NASTAVA

MASKARE, ČA MOGU MASKARE

U suradnji s muzejskom pedagoginjom i djelatnicima Muzeja grada Splita učenici 1.c realizirali su projekt Skupna maska cara Dioklecijana i tako nam dočarali Dioklecijanovo vrijeme

Maškare, ča mogu maškare...početni su stihovi pjesme koju već dugi niz godina uče i pjevaju nove i nove generacije djece. Učimo ih i kako se maškarati, kako svoje grijehe pripisati Krnji i, barem jednog dana u godini, živjeti u veselju bez grižnje savjesti. Tisućljetna je to tradicija kojoj zub vremena nije značajno promijenio način obilježavanja ali razlog postojanja svakako jest. Poučavati djecu načinu obilježavanja određene tradicije bez razvijanja svijesti o njenom društvenom značenju polovičan je posao i opasnost da se tradicija izgubi u vremenu ili poprimi neželjen karakter. A tradicija nije samo tradicija. Tradicija je kulturno dobro društva za čije smo očuvanje odgovorni svi, muzeji, škole i roditelji. Svatko od nas može uraditi mnogo ali zajedno možemo više.

Prve školske maškare prigoda su za početak organiziranog istraživanja i upoznavanja društvene tradicije. Motivacija za obradu teme Skupna maska cara Dioklecijana i njegove svite realizirala se u razrednoj učionici, a istraživanje i izrada kostima u Muzeju grada Splita. Muzejska pedagoginja Gorana Barišić Bačelić, učenicima je i roditeljima predstavila rimsku odjeću i obuću iz doba vladavine cara Dioklecijana. Učenici su, potpomognuti savjetima i praktičnim radom roditelja i muzejskih restauratora nacrtali toge, ukrasili plaštove, štitove i cipele, izradili fibule, medaljone i nakit. 08.03.2011. car Dioklecijan i njegova svita ponosno su šetali carskom palačom, Rivom i školom Lučac. Njihovo zadovoljstvo i ponos nije se moglo niti željelo skriti. Dioklecijan, Priska, Horacije, Valerija, ... s nestrpljenjem očekuju iduće školske maškare.

PISMO

Dragi ljudi, cijeloga svijeta! Molim vas nemojte zagađivati okoliš. Što bi se dogodilo da ne čuvamo prirodu? Njezina ljepota bi nestala. Već sada ima puno onečišćenih dijelova Zemlje. Neke rijeke više ne teku kao nekada, u njima je život osiromašen. mutne su. Posebno molim vlasnike tvornica da smanje svoj otpad. Ne želimo kisele kiše koje uništavaju šume. Zar želite ostati bez nebeskog plavetnila, čistog zraka, bistrine mora, travnatih površina poput zelenih pokrivača? Svatko se mora upitati što može raditi za očuvanje Zemlje. Čuvajmo naš planet jer on nije samo za nas, već i za naše potomstvo, za druge mlade generacije. Gdje bismo živjeli da nema Zemlje? Ona je naš dom. I da nema nje, ne bi bilo ni nas.

TAJANSTVENI OTOK

Tamo na debelom moru, na dalekoj pučini postoji jedan otok ili se meni samo tako čini. Kad puše bura, pa jako prema njemu more gura, onda se taj otok lijepo vidi i pokazati se ne stidi. A kad puše ono drugo, svi čupaju kosu i viču "Jugo!", onda se otok skriva i kao da roni dugo. Neka mi, molim, netko kaže što se s tim otokom događa da ga nekad lijepo vidim, a nekad ga moje oči traže.
